

Guided Practice: Age Verification

Outcome

This exercise introduces jQuery for event handling and **validator.js** for basic input validation. You will build a small form and add live validation so that users see immediate feedback as they type.

Resources Needed

- VCASTLE pod

Level of Difficulty

Moderate

Deliverables

- You will submit your lab report template with the necessary screenshot. Make sure your student ID and the date are present in the screenshot.

Task: Create Webpage

1. Create a new file named **AgeVerification.html** within a new folder.
2. Type the code below into the AgeVerification.html file. **Make sure to replace "StudentID" with your actual ECPI student ID, and fill out the Author, Date, and Purpose section.**

```
<!DOCTYPE html>
<html lang="en">
  <head>
```

```
<!--
  Author:
  Date:
  Purpose:
  -->
<meta charset="utf-8">
<title>Simple Form Validation</title>
<script src="https://code.jquery.com/jquery-3.6.0.min.js"></script>
<script src="https://cdn.jsdelivr.net/npm/validator.min.js"></script>
</head>
<body>
  <h1>StudentID – Age Verification</h1>
  <form id="simpleForm" novalidate>
    <label for="email">Email:</label>
    <input type="text" id="email" name="email">
    <div id="emailError" style="color:red;"></div>
  <br>
  <label for="age">Age:</label>
  <input type="number" id="age" name="age">
  <div id="ageError" style="color:red;"></div>
  <br>
  <button type="submit">Submit</button>
```

```
</form>

<script src="SimpleValidation.js"></script>

</body>

</html>
```

Task: Create Script

1. Create a new file named **SimpleValidation.js** within the folder.
2. Type the code below into the SimpleValidation.html file. **Make sure to replace "StudentID" with your actual ECPI student ID, and fill out the Author, Date, and Purpose section.**

```
/*
    Author:
    Date:
    Purpose:

*/

$(function () {
    // Select the form once the document is ready
    const $form = $('#simpleForm');

    // Live Email Validation
    $('#email').on('keyup blur', function () {
        // Get the current value of the email input
        const value = $(this).val();
```

```
// Use validator.js to check if it's a valid email
if (!validator.isEmail(value)) {
    // If invalid, show an error message under the field
    $('#emailError').text('Please enter a valid email address. ');
} else {
    // If valid, clear the error message
    $('#emailError').text('');
}
});

// Live Age Validation
$('#age').on('keyup blur', function () {
    // Get the current value of the age input
    const value = $(this).val();

    // Use validator.js to check if it's an integer >= 18
    if (!validator.isInt(value, { min: 18 })) {
        // If invalid, show an error message under the field
        $('#ageError').text('You must be 18 or older. ');
    } else {
        // If valid, clear the error message
    }
}
```

```
$('#ageError').text('');
}
});

// Form Submission Handling
$form.on('submit', function (e) {
    // Prevent the default form submission (page reload)
    e.preventDefault();

    // Get values from both fields
    const email = $('#email').val();
    const age = $('#age').val();

    // Validate both fields one more time before allowing submission
    const validEmail = validator.isEmail(email);
    const validAge = validator.isInt(age, { min: 18 });

    if (validEmail && validAge) {
        // If both are valid, show a success alert
        alert('Form submitted successfully!');
    }

    // Reset the form inputs
```

```
$form[0].reset();

// Clear any leftover error messages
$('#emailError, #ageError').text('');
} else {
    // If not valid, make sure errors are shown (live checks already do this)
    if (!validEmail) $('#emailError').text('Please enter a valid email address. ');
    if (!validAge) $('#ageError').text('You must be 18 or older. ');
}
});
});
```

3. **Take a screenshot** with your name and date resembling the one below and **paste it into your lab report**. Be sure to include your computer system date and time.

StudentID — Age Verification

Email:

Please enter a valid email address.

Age:

You must be 18 or older.
